2022

Welcome to
TUNGSRAM

Tungsrám, one of Europe's most iconic lighting brands, is today an independent, privately-owned company and a leading force in the global lighting market.

OUR STORY

The legal predecessor of Tungsrám, Incandescent Lamps and Electric, Ltd., was founded in **1896**.

Tungsrám contributed to the technological improvement in the lighting and telecommunication industry with significant improvements, such as: the development of the tungsten wire for light bulbs, or the great crystal tungsten filament, which made lamps more dependable and reliable.

In the **1930's**, Tungsrám was the largest light bulb and radio tube manufacturer in Central Europe and the third largest in Continental Europe.

After World War II, beyond keeping up with technological development in the core lighting business, building up large scale television, electron tube production, and making inroads into microelectronics, Tungsrám grew to a provider of vacuum technology machinery and turn-key light source factories.

The Tungsrám name has always been highly respected. The Tungsrám Group, based in Hungary, has been developing and manufacturing premium lighting products for residential, commercial and automotive applications for over a century. This rich heritage has now entered into an exciting new phase in **2018**, following our acquisition of GE Lighting's Europe, Middle East, Africa and Turkey operations, which is now teamed up with GE's former Global Automotive Lighting business.

As we head into the 21st century, Tungsrám is poised to build and supply the best lighting available in terms of quality and dependability for consumers on all continents.

Our company will drive forward the design and development of all kinds of light sources, from traditional technologies to state-of-the-art LED products, and will secure Tungsrám's position as a global force in lighting solutions.

Our manufacturing expertise is based on a tradition of creativity and innovation. The combined knowledge of its 4,000 dedicated employees and 1,600 worldwide vendor partners is the irrefutable force that drives the production in five Europe-based manufacturing facilities.

Tungsrám's range of products are all developed in close collaboration with automotive manufacturers from across the globe

Not only does this guarantee that our products meet the highest quality standards of every make and model of vehicle on the road today, it also means that customers will have access to high-quality, affordable replacement parts.

Tungsrám automotive lamps significantly improve visibility and safety for drivers. Keeping in mind the design principle, „see and be seen,“ Tungsrám automotive lamps significantly improve visibility and safety for drivers. Offering premium special lamp design and basic range, Tungsrám lamps will always provide more light on the road. The premium lamps used in headlight application are also DOT compliant, making their use on US roads legal. The main objective in the development of the premium lamps is to effectively help in improving driving performance at night and in poor visibility conditions, maximizing drivers' visibility and reducing the risk of road accidents.

Our constant quality aim is Zero Defects. This involves designing uncompromising quality into the lamps leading to suitability and reliability with a high standard of quality equalling that of the manufacturing technologies.

Our lamps are manufactured to strict international standards and are appropriately marked in conformance with FMVSS with ANSI standards.

Our renowned automotive lighting ranges include basic and premium lamps for original equipment and aftermarket, and we supply products for all major auto brands.

EIGHT WAYS TO MAKE NIGHT DRIVING BETTER

1. Upgrade to TUNGSRAM NIGHTHAWK® headlights for improved nighttime driving visibility and safety.
2. Change headlights regularly for optimal night vision.
3. Change headlights in pairs for even illumination on both sides.
4. Check all vehicle lights with every oil change.
5. Check headlight alignment regularly.
6. Clean headlight lenses every time you wash your windshield.
7. Whiter light can help improve contrast to make it easier to distinguish objects at night.

NIGHTHAWK™ LED Sealed Beam*

- Bright, white light
- Exceptional visibility
- Lasting performance
- DOT compliant

Virtually maintenance-free bright, white light.

Trust the LED replacement that's not only clearer than standard halogen sealed beam headlights, but it's long-lasting, too, at 15,000 hours. Need additional performance assurance? Tungram NIGHTHAWK™ LED Sealed Beams come with a three-year limited warranty.

Tungram takes the requirement to sell DOT-compliant headlamps seriously. You can count on Tungram to deliver products that meet all DOT requirements. Choose our sealed beam replacement system for your LED upgrade, and you can trust that it has the proper quality, making it safe and legal way to enhance your nighttime driving.

*Sealed Beam Replacement

Exceptional light. Exceptional experience.

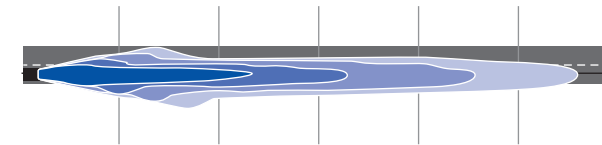

NIGHTHAWK™ LED

SKU	Lamp Type	Lamps/ UOS	UOS/ Case	CCT	Direct Replacement	Canbus type
93112881	LED 7" ROUND	1	6	5600K	6012, 6014, 6015, 6016, 6017, H5024, H6024	55W
93112882	LED 5X7	1	6	5600K	6052, 6053, H5054, H6054	55W
93112884	LED 4X6 HIGH	1	6	5600K	4651, H4651, H5051	55W

NIGHTHAWK™ LED Fog Lamps

-  Bright, white light
-  Greater visibility
-  Lasting performance

A choice that's clear.
Especially when the air isn't.

The long-lasting performance and enhanced visibility drivers experience with LED Fog Lamps from Tungsram provide peace of mind to help them reach their destination with less worry. Meanwhile, the convenient replacement these retrofits offer makes the upgrade to LED Fog Lamps easy. The fanless version comes even with a five year limited warranty.

HID headlamp. LED Fog Lamp.

Quality shines through.

Quality is built into every fog lamp Tungsram delivers. Manufactured to exacting and demanding specifications and standards, Tungsram LED Fog Lamps fulfill the needs of drivers around the world.

For fog use only.

NIGHTHAWK™ LED Miniatures

A big expansion on small lights.

It's an exponential expansion of the lights that may be overlooked but which drivers don't want to be without.

Tungram has expanded their line of miniatures to 21 lights, providing more fits for more vehicles.

From dome, door and dashboard lights to tail lights and more, this expansion makes a total vehicle upgrade to LED easier than ever.

Performance and quality inside and out.

Tungram miniature lighting products are crafted for precision, performance, style and long life, so drivers can focus on the road ahead with the confidence they're also being seen by others. The added choices provide added value for every socket.

High Intensity Discharge Lamps

- DOT compliant
- Exceptional visibility
- Lasting performance
- White light

Intensify your driving experience with a bright, long-lasting light that outperforms conventional halogen lamps.

Tungram High Intensity Discharge (HID) lamps produce a quality light that gets noticed by car lovers and novices alike.

From behind the wheel, the HID headlamps deliver better visibility and illumination than standard halogen, creating a better driving experience. And from the road, HID delivers an eye-catching, white-light style that stands out.

High performance light for high performance people.

93116611	D4S	1	3

A better driving experience is in the details.

Extensive design and testing confirm that Tungram HID lamps are fully interchangeable with those of other major lamp manufacturers and can be operated on all available control units.

Better Visibility

Greater illumination on the road for improved hazard awareness and navigation in poor driving conditions.

Increased Efficiency

A 3,000-hour rating while consuming 20W less power when compared to standard halogen headlamps, which consume 55W.

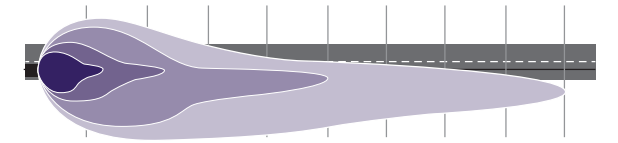

Improved Durability

Excellent vibration and shock resistance, resulting in significantly greater reliability than standard halogen lamps.

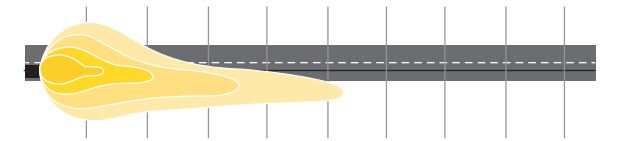

Advanced Optics

A white light that more closely resembles natural daylight.

TUNGSRAM PACKAGING

BLISTER (BP)

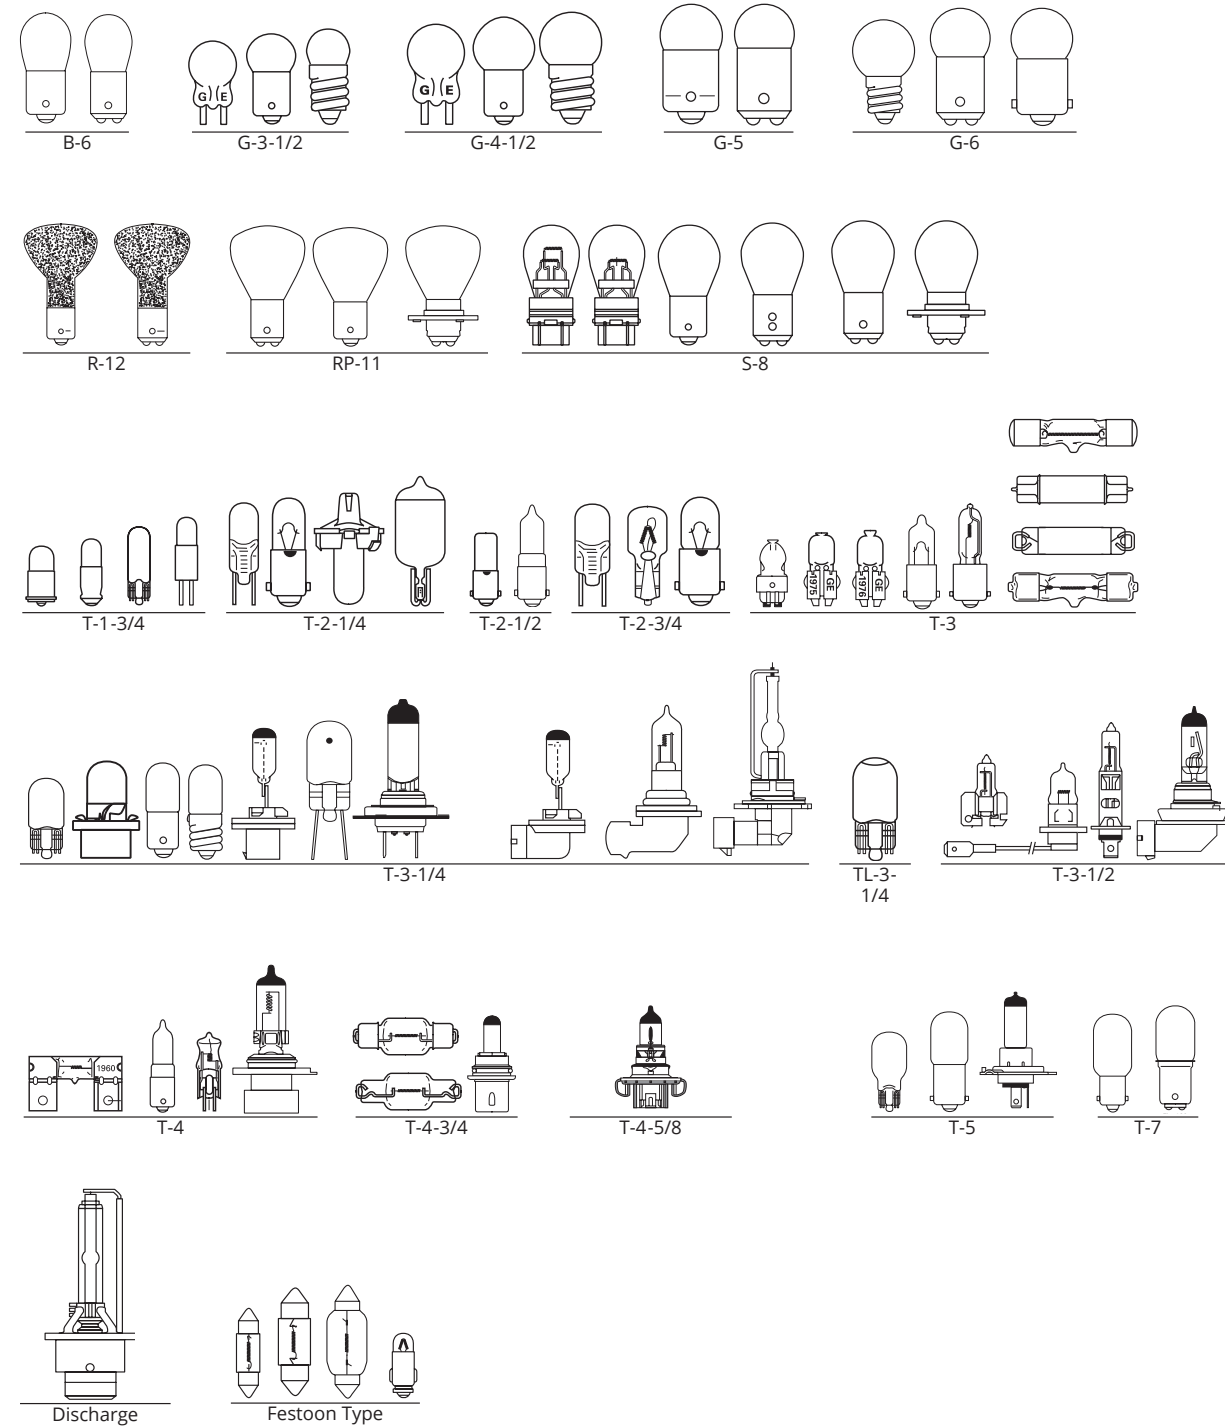

PLASTIC BOX (PB)

BOXED

LAMP LOCATOR

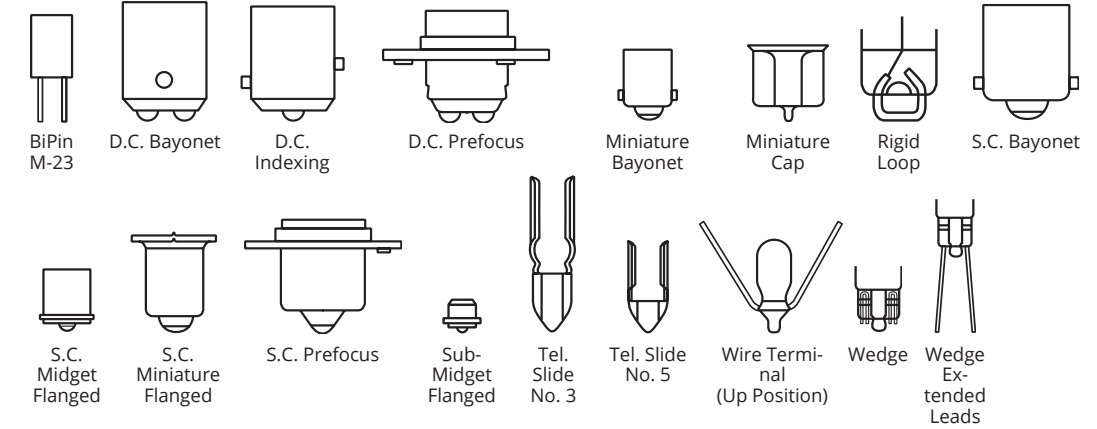

The lamps listed here are not to scale. To determine the diameter of a bulb in inches, multiply the bulb number by one-eighth. For example T-2 means approximately 2/8" or 1/4" diameter.

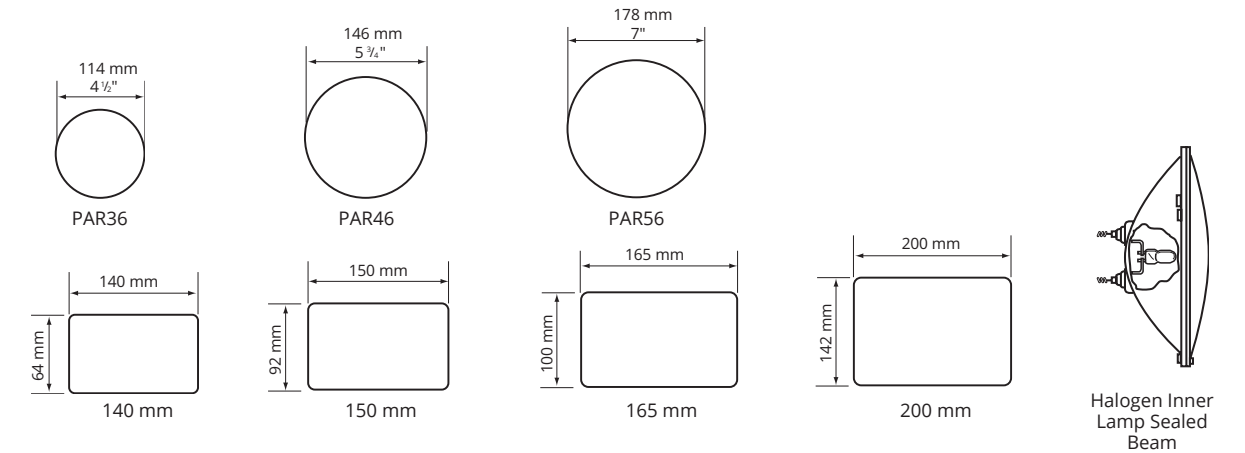

MINIATURE BASES

Bases provide electrical contact to the lamp and, in most cases, also support the lamp in the fixture. For miniature and subminiature lamps, bayonet or wedge base types are generally preferred over screw types when vibration is present.

In addition, wedge bases reduce socket size and complexity. Flanged or collared types are usually associated with requirements for filament location.

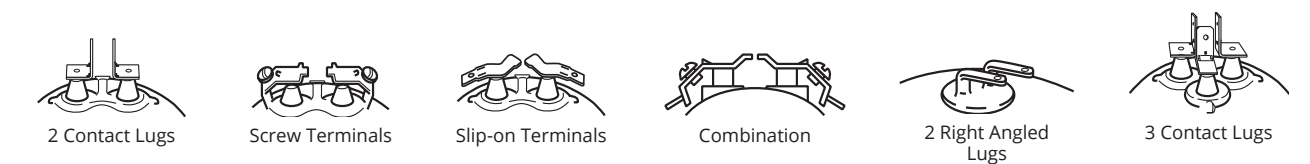

SEALED BEAM LAMPS

SEALED BEAM BASES

Bases provide electrical contact to the lamp. The most common bases for sealed beam lamps are the screw terminal and contact lug types. Other types are also available, as illustrated.

PRODUCT ORDERING INFORMATION

Lamps are designed for those applications requiring specific bulb size, base, and voltage. These lamps are operated on vehicles (cars, trucks, boats, aircraft, tractors) or in special applications utilizing low voltage sources. Most lamps are designated by common ANSI (American National Standards Institute) lamp numbers and lamps in this section are arranged in numerical order. To assist you in identifying lamps, drawings (not to scale) are provided, along with descriptions of bulb and base sizes.

Specific market segments covered in this section are products used in:

- Aircraft Emergency Building Lighting Marine
- Automotive Flashlight/Hand Lanterns Medical/Instruments
- Agriculture Garden/Outdoor Telephone
- CIM/Tractor Indicator Toys/Entertainment

FINDING AND ORDERING A LAMP

Most lamps have a number on the base or bulb. Generally it will match the lamp number in this catalog, which is sorted in numeric order (prefixes last). Often the first prefix is another lamp manufacturer's identification and can be ignored. You can verify the lamp using the drawings provided. Order codes for Blister and Unit are provided.

FORMULAS

The following are commonly used formulas to assist any calculations you may need.

- Watts = Volts x Amps
- Lumens = 12.57 x Mean Spherical Candelpower
- Kelvin = Celsius + 273
- Hot Resistance (Ohms) = Volts/Amps

ABBREVIATIONS

The abbreviations used in this catalog include:

A	Amperes	PAR	Parabolic Aluminized Reflector
ANSI	American National Standards Institute	Pf.	Prefocus
Bay.	Bayonet	SAE	Society of Automotive Engineers (US Motor Vehicle Standards)
D.C.	Double Contact	Sc.	Screw
Flg.	Flanged	S.C.	Single Contact
HID	High Intensity Discharge	Spec.	Special
LCL	Light Center Length	Tel.	Telephone
Min.	Miniature	Term.	Terminals
MOL	Maximum Overall Length	V	Volts
MSCP	Mean Spherical Candelpower	W	Watts
Nom.	Nominal		
C.I.M.	Construction & Industrial Machinery		
C.P.	Candelpower		

LAMP PREFIXES

DE	Double-Ended	Q	Quartz Halogen
H	Halogen	W,T,R	European Designation
K	Krypton Gas	C,P	
PR	Prefocus Base (e.g., "Flashlight Lamp")	D	Discharge

LAMP SUFFIXES

A	Amber	X	Indicates some arbitrary deviation from the normal product
HD	Heavy Duty	-1	Slip-on terminals
LL	Long Life	-2	Represents various deviations
NH	Nighthawk™	-3	Represents deviations (e.g. combination terminal)
NHP	Nighthawk™ Platinum		
NHX	Nighthawk™ Xenon		
NA	Natural Amber (automotive lighting)		
R	Red		

HEADINGS IN THIS CATALOG SECTION

The following terms and descriptions can help you when checking Halogen lamp specifications and when ordering products. Within each product line, lamps are divided into families. Within families, lamps are listed by wattage. In each of these groups, lamps are listed alphabetically by bulb shape.

Lamp No. Where applicable, lamps are marked with a Tungsram trade number recorded with the ANSI. See glossary of prefixes and suffixes on page 5-26.	Pack Type & Case Qty Quantity of lamps per case if blister pack (BP), plastic box (PB) or boxed. Set = 2 lamps in unit of sale	DOT compliance	Volts Design Voltage at which the lamp is designed to provide the amperes, candelpower and laboratory life characteristics.	Amps (A) or Watts (W) at design voltage.	MSCP/MBCP Approximate output expressed as initial mean spherical candelpower (see lumen conversion). For Sealed Beam MBCP is the maximum intensity of the beam in candelas, generally in the beam's center, and spread is beam size expressed in degrees.	Bulb The prefix letter describes the shape and the number is the approximate bulb diameter.	Base: Base types are depicted on the previous pages for both Miniature and Sealed Beam.	Filament C- coiled, CC- coiled coil, -6= horizontal, -8= vertical to base.	LCL (in) Distance in inches between base reference plane and filament center.	MOL (in) Length of the bulb from the top to the bottom of the base.	Rated Life (hrs) Lamp burning hours to medium life expectancy. Life of the halogens is specified at 14V.	Warning and Caution Notices See page 54-55 for explanation.
Order Code Use this code when ordering to ensure that you receive the exact product you require.	Primary Application Current uses of the lamp in general. Lamps are also used in other applications than listed.

302

⚠ WARNING

Risk of fire

- Keep combustible materials away from lamp
- Use in fixture rated for this product

Unexpected lamp rupture may cause injury, fire, or property damage

- Avoid contact with glass during operation
- Avoid direct water/liquid contact
- Use in enclosed fixture rated for this product

304

⚠ WARNING

Risk of fire

- Keep combustible materials away from lamp
- Use in fixture rated for this product

Lamp emits UV radiation which may cause eye/skin injury

- Avoid exposure of eyes and skin to unshielded lamp

Pressurized lamp—unexpected rupture may cause injury, fire, or property damage

- Use eye protection when handling lamp
- Do not exceed rated voltage
- Do not touch glass with bare hands
- Do not use lamp if outer glass is scratched or broken
- Dispose of lamp in a closed container
- Do not turn on lamp until fully installed
- Keep away from children
- Use protective screen when handling

⚠ CAUTION

Risk of burn

- Allow lamp/fixture to cool before handling

For Best Performance

- Limit seal temperature to 350°C
- Maintain 250°C minimum bulb wall temperature
- Remove fingerprints from bulb with grease-free solvent
- Operate at design voltage

305

⚠ CAUTION

Lamp may shatter and cause injury if broken

- Do not use excessive force when installing lamp

306

⚠ WARNING

Pressurized lamp—unexpected rupture may cause injury, fire, or property damage

- Use eye protection when handling lamp
- Do not exceed rated voltage
- Avoid direct water/liquid contact
- Use in enclosed fixture rated for this product
- Do not use lamp if outer glass is scratched or broken
- Dispose of lamp in a closed container
- Do not turn on lamp until fully installed
- Keep away from children
- Use protective screen when handling

⚠ CAUTION

Risk of burn

- Allow lamp/fixture to cool before handling

307

⚠ WARNING

Pressurized lamp—unexpected rupture may cause injury, fire, or property damage

- Do not use lamp if outer glass is scratched or broken
- Dispose of lamp in a closed container

- Operate at design voltage

E10

⚠ WARNING

Risk of electric shock

- Turn power off before inspection, installation or removal

Risk of fire

- Use in fixture rated for this product

A damaged lamp emits UV radiation which may cause eye/skin injury

- Turn power off if glass bulb is broken. Remove and dispose of lamp
- Use eye protection when handling lamp
- Do not exceed rated voltage
- Do not touch glass with bare hands
- Avoid direct water/liquid contact
- Use in enclosed fixture rated for this product
- Do not use lamp if outer glass is scratched or broken
- Use only properly rated ballast
- Operate lamp only in specified position
- Do not use beyond rated life
- Do not turn on lamp until fully installed
- Do not use beyond rated life

WARNING AND CAUTION NOTICES CONT.

⚠ CAUTION

Risk of burn

- Allow lamp to cool before handling
- Do not turn on lamp until fully installed
- Turn power off before installing lamp

Turn power off before installing lamp

- Turn power off before installing lamp. Use only properly rated ballast

Lamp may shatter and cause injury if broken

- Wear safety glasses and gloves when handling lamp
- Do not use lamp if outer glass is scratched or broken
- Dispose of lamp in a closed container
- Remove and install by grasping only plastic portion of the lamp
- Do not use excessive force when installing lamp

Hg - LAMP CONTAINS MERCURY

Manage in Accord with Disposal Laws

See: www.lamprecycle.org or 1-800-435-4448

Lamp should be installed by an automotive service specialist.

311

- Not intended for use as headlamp. Use only as auxiliary lamp such as fog lamp

312

- After installation verify correct operation. In some vehicles the lower current draw may result in incorrect operation. In this case replace lamps.

313

⚠ WARNING

Risk of electric shock

- Turn power off before inspection, installation or removal

Risk of fire

- Use in fixture rated for this product

A damaged lamp emits UV radiation which may cause eye/skin injury

- Turn power off if glass bulb is broken. Remove and dispose of lamp.

Pressurized lamp--unexpected rupture may cause injury, fire, or property damage

- Use eye protection when handling lamp
- Do not exceed rated voltage

- Do not turn on lamp until fully installed
- Do not use beyond rated life

⚠ CAUTION

Risk of burn

- Allow lamp to cool before handling
- Do not turn on lamp until fully installed
- Turn power off before installing lamp

Turn power off before installing lamp

- Turn power off before installing lamp Use only properly rated ballast

Lamp may shatter and cause injury if broken

- Wear safety glasses and gloves when handling lamp
- Do not use lamp if outer glass is scratched or broken
- Dispose of lamp in a closed container
- Remove and install by grasping only plastic portion of the lamp
- Do not use excessive force when installing lamp

314

Replace lamps in pairs

- If replacing halogen lamps, the low beam halogen lamp must be replaced with the Tungsram low beam LED and the high beam halogen must be replaced with the Tungsram high beam LED lamp

Do not combine a LED high beam with a halogen low beam, or vice versa as the correct beam pattern will not be achieved

315

See installation instructions with lamp
