Sportlight Extreme

Up to 40% more light.
Intense blue-white light
up to 5000K.

A futuristic car is shown from a side-rear perspective, driving on a track. The scene is set at sunset or sunrise, with a warm, golden glow in the background. The car's wheels and the track surface are blurred, suggesting high speed. A prominent blue-tinted lens flare or light trail effect runs across the foreground, partially obscuring the car's rear wheel and the track. The overall aesthetic is sleek and high-tech.

automotive.tungsr.com

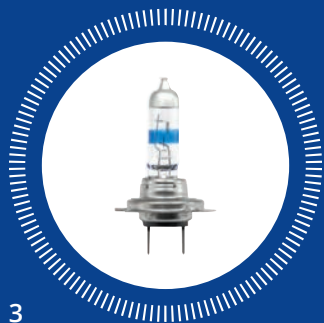

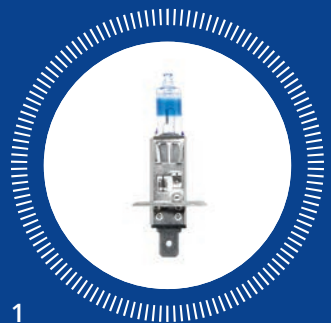

Stylish, brilliant white light combined with more light.
Up to 5000K colour temperature
Up to 40% more light
